To Whom it May Concern:

This letter is to recommend Jonathan Casas for any employment opportunity he may choose to get involved in.

I have known Jonathan for nine years and we were on church staff together for about seven years. I know him to be a man of integrity, commitment, compassion and giftedness. He will do well in any endeavor he undertakes because of the breath of his abilities and his strong work ethic.

He is multi-talented in the area of music. He has excellent vocal and keyboarding skills, able to lead choir and small groups, and has great stage presence in leading a congregation in worship.

He was Web Administrator for the church and took care of all the church technology needs, including web site design, church directories, communication and publicity. His creative and artistic abilities helped create wonderful seasonal displays for Christmas and Easter.

Jonathan works well with people, sharing interest, compassion and giving direction where needed. His strong work ethic helped build the church and increase participation of people in the ministry.

Jonathan Casas would be a valuable asset to any ministry or organization, and I would not hesitate to recommend him to any group fortunate enough to hire him.
